

MAREPALLI SANTHOSH

AI/ML Engineer · Full-Stack Developer · Data Analyst | B.Tech CSE (AI/ML) | Fresher

+91 9701672073 · marepallisanthosh.999333@gmail.com · [LinkedIn](#) · [GitHub](#) · [LeetCode](#) · [Portfolio](#) · Vijayawada, AP

ABOUT ME

B.Tech CSE (AI/ML) graduate from Aditya College of Engineering & Technology with 3 internships (including a 6-month government-certified program under APSICHE × Google for Developers) and 3 deployed end-to-end projects. Skilled across the full stack — Python, MERN, NLP, TensorFlow, REST APIs, Docker, and cloud deployments. Built and shipped SmartHire, a live AI-powered resume & job-matching platform, as a capstone. Active on LeetCode with strong DSA foundations, Hackathon Finalist, and comfortable in Linux/Arch environments. Open to opportunities in AI/ML engineering, full-stack development, data analytics, and software engineering.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C++, Shell

Full-Stack: MERN Stack, React, Angular, Node.js, Express.js, REST APIs, JWT Authentication, MongoDB, PostgreSQL, MySQL, Supabase

AI / ML: TensorFlow, Scikit-learn, Pandas, NumPy, NLTK, Deep Learning, NLP, Sentiment Analysis, Time-Series Forecasting, Feature Engineering

Data & BI: Tableau, Matplotlib, Seaborn, Data Preprocessing, KPI Dashboards, Statistical Analysis

DevOps & Cloud: Docker, Vercel, Google Cloud APIs, Git, GitHub, Jupyter, Linux/Arch (shell scripting, system troubleshooting)

CS Fundamentals: Data Structures & Algorithms, OOP, System Design, Design & Analysis of Algorithms

EXPERIENCE

AI/ML Long-Term Intern · [SmartBridge × APSICHE × Google for Developers](#) | Oct 2025 – Mar 2026 | Virtual | 240 hrs

- 6-month, 240-hr government-certified AI/ML internship (APSICHE × SmartBridge × Google for Developers) — end-to-end ML workflows.
- Trained and evaluated classification, regression, and NLP models across real-world datasets using Python and Scikit-learn.
- Covered supervised & unsupervised learning, feature engineering, and model deployment best practices across 6 structured modules.

Data Analytics Intern · [Smartbridge](#) | May 2025 – Jul 2025 | Remote

- Delivered 5+ Tableau dashboards tracking KPIs — automated pipelines cut manual reporting effort by ~40%.
- Analyzed 10,000+ records surfacing 3+ business trends, presented to 5+ stakeholders for data-driven decisions.
- Performed data preprocessing, anomaly detection, and trend analysis across multi-source business datasets.

AIML Trainee Intern · [Edunet Foundation](#) | May 2024 – Jun 2024 | Remote

- Trained 4+ ML models on IBM SkillsBuild — improved accuracy by 12% via TF-IDF, class-weight balancing, and cross-validation.
- Capstone: sentiment classification of 10,000+ reviews — 88% accuracy using Logistic Regression and TF-IDF.
- Applied ML principles across data preprocessing, model evaluation, and feature selection on real-world datasets.

PROJECTS

SmartHire — AI Resume & Job Matching Platform (Capstone) — React, Node.js, Express, MongoDB, NLP

- AI-powered MERN platform with NLP-driven ATS scoring, 3 role-based dashboards, and JWT auth — [Live Demo](#).
- Owned REST API architecture and JWT auth layer; coordinated backend–frontend integration across a 4-member team.
- Engineered NLP resume parser, real-time ATS scorer, and job-matching engine as core platform features.

Stock Price Prediction & Options Pricing — Python, TensorFlow, Pandas, NumPy

- LSTM model on 5 years NIFTY 50 data — ~72% directional accuracy via SMA/RSI feature engineering and backtesting.
- Implemented Black-Scholes-Merton model; Visualized Greeks (Delta, Gamma, Vega, Theta) for options risk analysis.
- Developed 10+ technical indicators (Bollinger Bands, SMA, RSI) — reduced prediction error by ~18% over baseline.

Sentiment Analysis — Product Reviews — Python, NLTK, Scikit-learn, Matplotlib

- Logistic Regression classifier on 10,000+ reviews — 88% accuracy, 15% error reduction via hyperparameter tuning.
- Constructed a TF-IDF + NLTK NLP pipeline for text preprocessing, feature extraction, and sentiment classification.
- Plotted sentiment trends, word-frequency heatmaps, and confusion matrices using Matplotlib for model insights.

EDUCATION

B.Tech — CSE (Artificial Intelligence & Machine Learning)

Aditya College of Engineering & Technology, Surampalem | 2022 – 2026 | CGPA: 7.09

Intermediate (MPC)

DVR Jr. College, Nandigama | 2020 – 2022 | 74.7%

ACHIEVEMENTS & CERTIFICATIONS

- Finalist — College-level Hackathon (2023), competing against 100+ teams with an algorithmic solution under time constraints.
- Active on LeetCode — consistent practice in arrays, strings, trees, DP, and graph problems.
- [Deep Learning \(Deep Dive\)](#) · [Intro to Deep Learning](#) · [Intro to NLP](#)
